

sneaker

The Sneaker girl is all about cool, but very accessible cool. Normally seen dashing about town, you always know the coolest music and films. You are quick on your feet and witty, often peppering your conversation with a bit of ironic or sarcastic humor just for effect. And then you're gone just as fast as you arrived.

completing the look

Try flared-leg fine-wale cords in solid bold colors: pumpkin, eggplant, hunter green, or black. A vintage or customized tee under a long-sleeved button-down also of vintage descent completes the look. Hair should be totally natural in whatever form it may take — short spiky and a bit punky, or long and curly. Only makeup that can be applied while in dashing mode will do — lip gloss from a tube, tinted moisturizer with sunscreen, and mascara usually work well. Accoutrements are more often something handmade and rustic — a rope necklace with handmade bead, a sturdy backpack or messenger bag in a bright color that is a bit distressed from constant use.

work it, girl

You have got to be producing something to be happy: film, music, cool lifestyle magazine — whatever it is, it's got to be hipster and zippy. Constant motion is the only state you'll be happy in, so find a place that requires much of you in the

way of shepherding ideas, film canisters, edits, or photography from one place to another, along with your expertise in behind-the-scenes running.

finding a sole mate

You want someone who will go skateboarding and exploring with you, just as easily as hanging at home on a Saturday afternoon, chilling and listening to the latest French house CD. Your mates have got to be flexible, fun, and actually get your ironic remarks. A little bit of a thick skin helps so that they never get hurt by your ironies, but not too thick. They've got to be able to open up emotionally and listen to your dreams and desires just as well. It's important for a Sneaker girl to feel she always has a place of safe, sweet loving with her mate where she can really open up and lose her freneticism.

invoking your inner stiletto

Showing off your creamy shoulders can be a nice touch. Toss off the layered look and instead try a light pink tank of mercerized cotton with lacy trim to pair with your cords. And some dangly earrings. Voilà!
